

**Scenario:** Fossil fueled car on fire; Hy-vehicle nearby

**Operator:**

- Fire protection **concept**, in particular:
  - Detection
  - Venting regime
  - Information for fire services

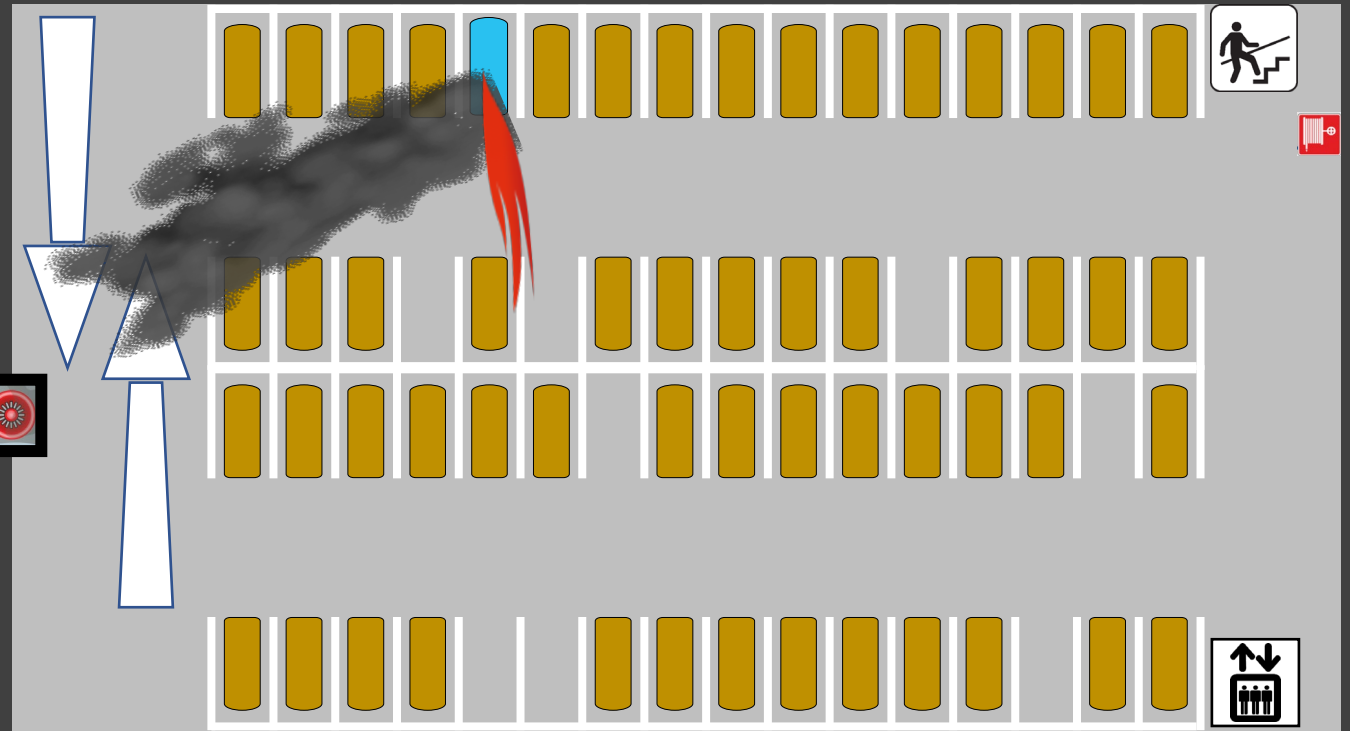

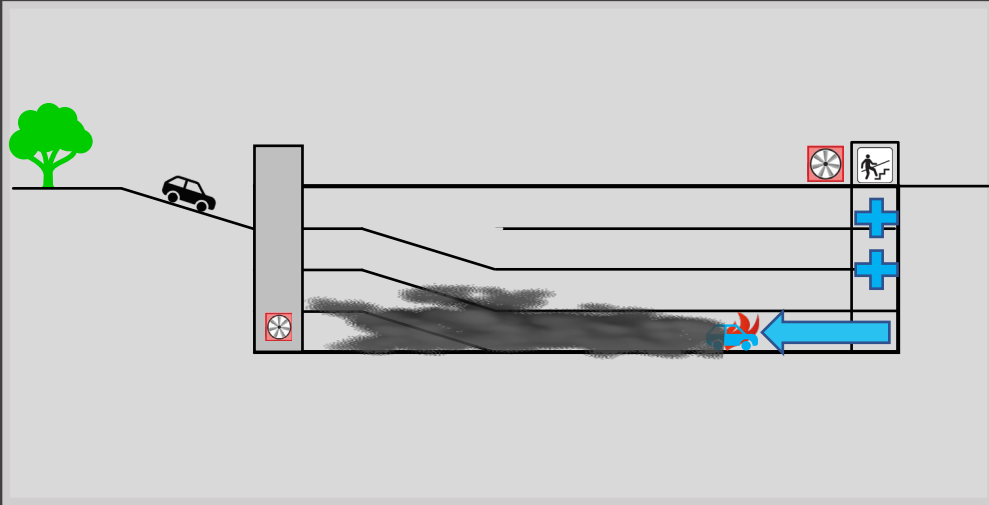

**Moveable symbols**

Scenario: Hydrogen fueled car on fire

**Operator:**

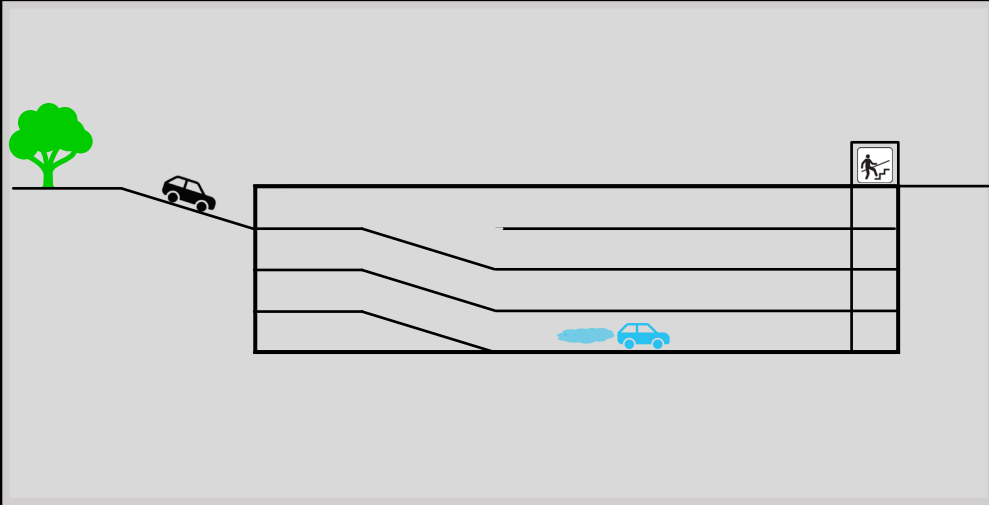

- Fire protection **concept**, in particular:
  - Detection
  - Venting regime
  - Information for fire services

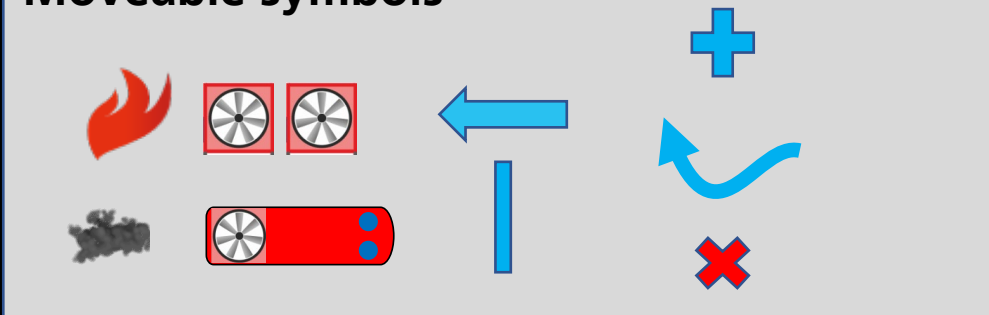

**Moveable symbols**

**Scenario:** Hydrogen release, no fire

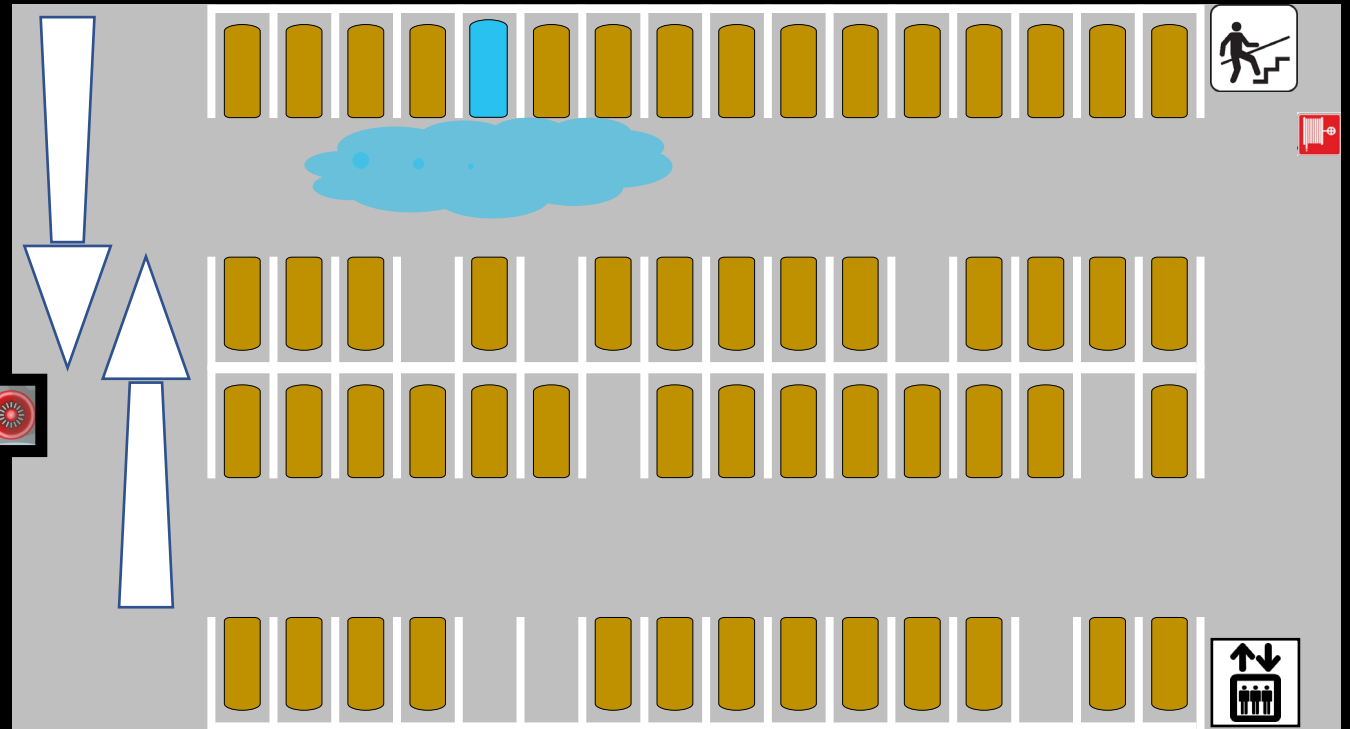

**Moveable symbols**

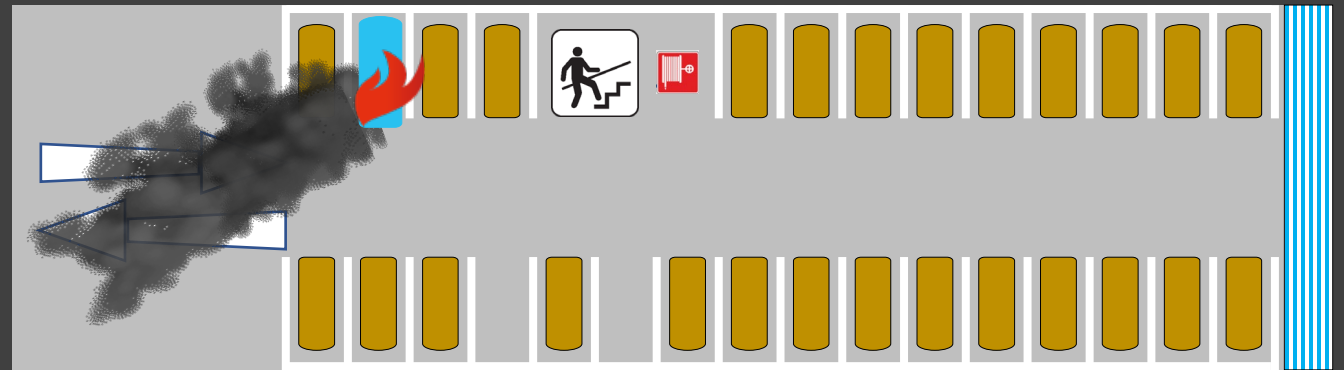

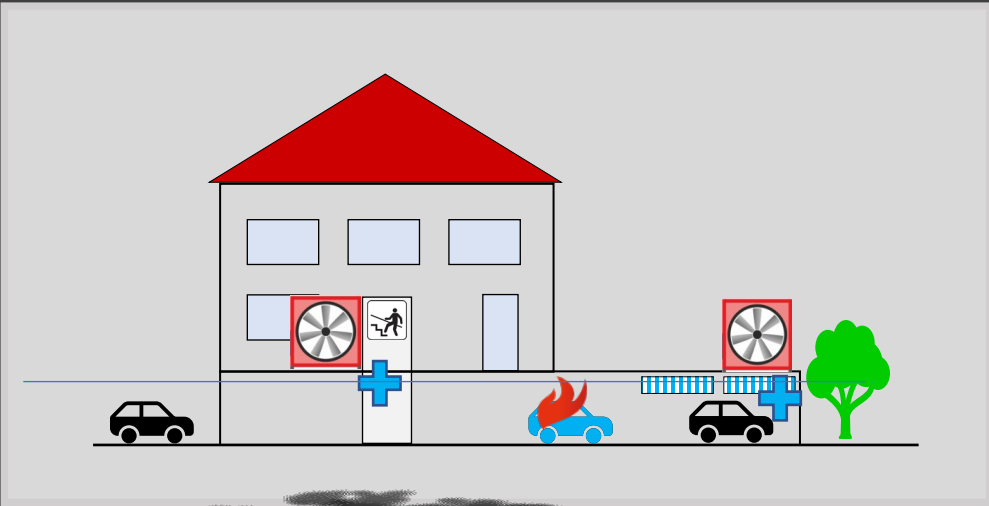

**Operator:**

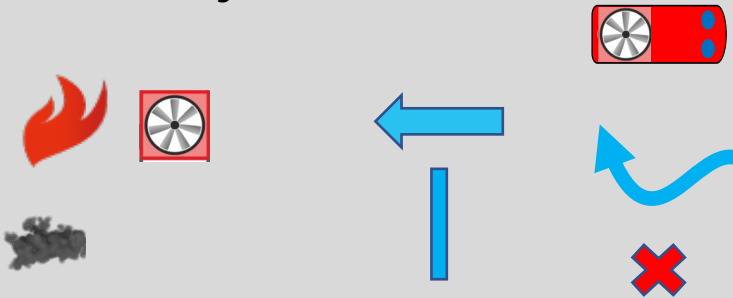

- Fire protection **concept**, in particular:
  - Detection
  - Venting regime
  - Information for fire services

## Scenario: Hydrogen fueled passenger car on fire

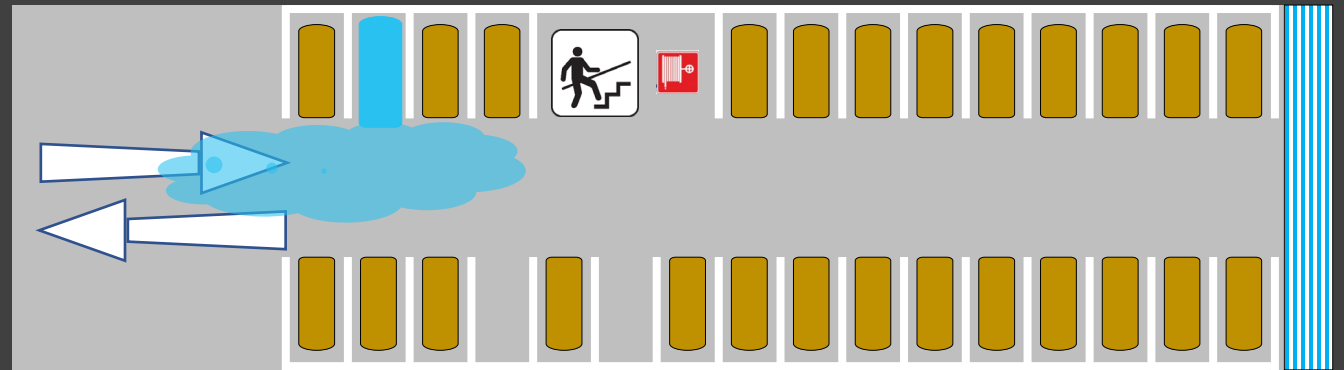

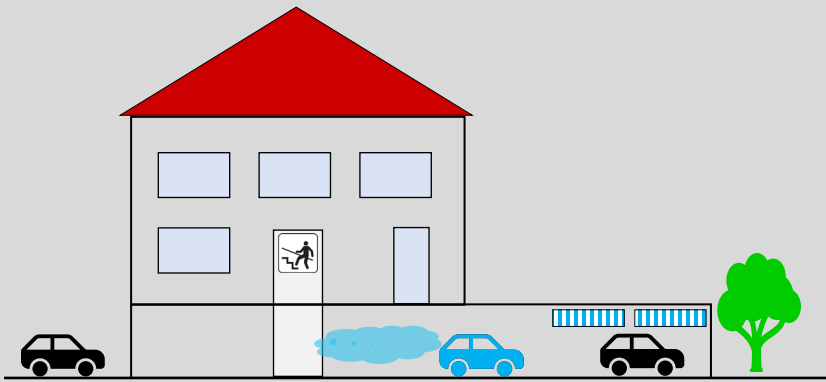

### Moveable symbols

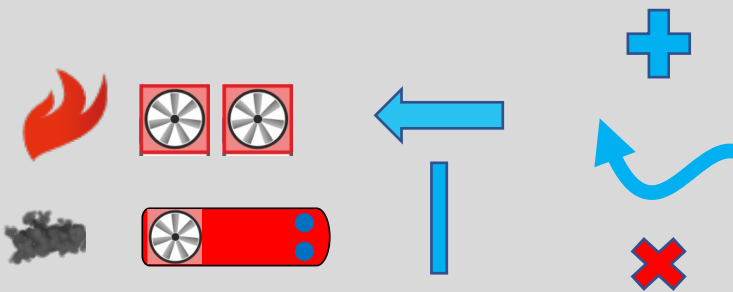

### Operator:

- Fire protection **concept**, in particular:
  - Detection
  - Venting regime
  - Information for fire services

**Scenario:** Hydrogen release, no fire

### Moveable symbols

### Operator:

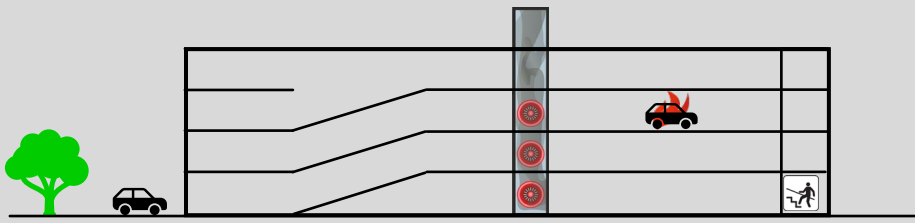

- Fire protection **concept**, in particular:
  - Detection
  - Venting regime
  - Information for fire services

**Scenario:** Fossil fueled car on fire; Hy-vehicle nearby

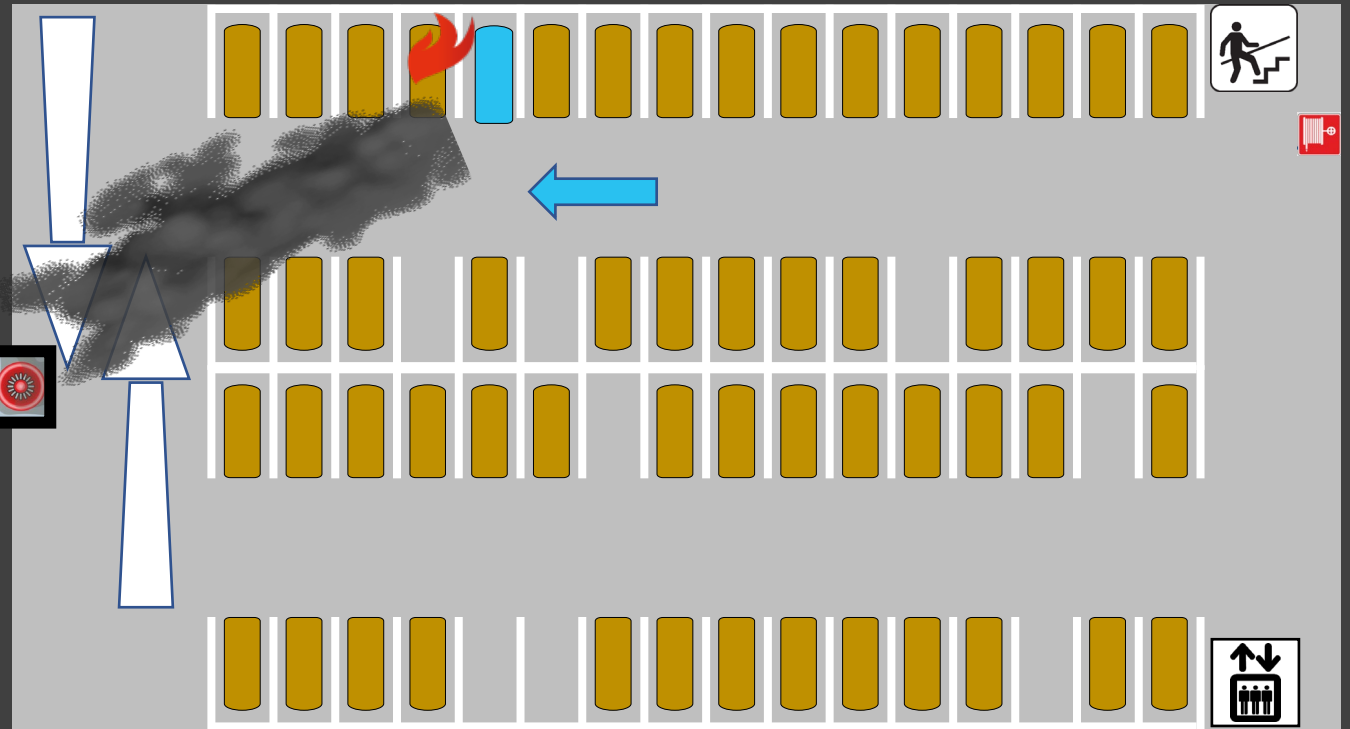

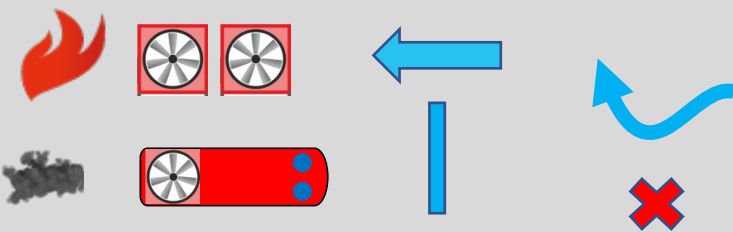

**Operator:**

- Fire protection **concept**, in particular:
  - Detection
  - Venting regime
  - Information for fire services

Level

**Moveable symbols**

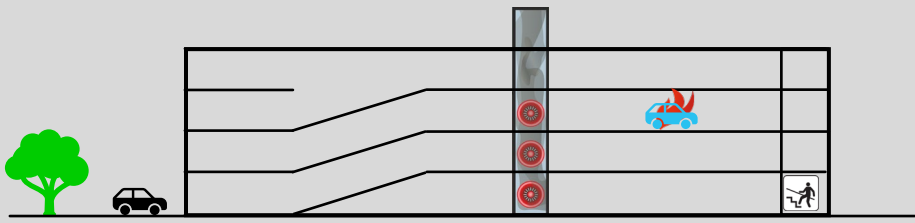

**Scenario:** Hydrogen fueled passenger car on fire

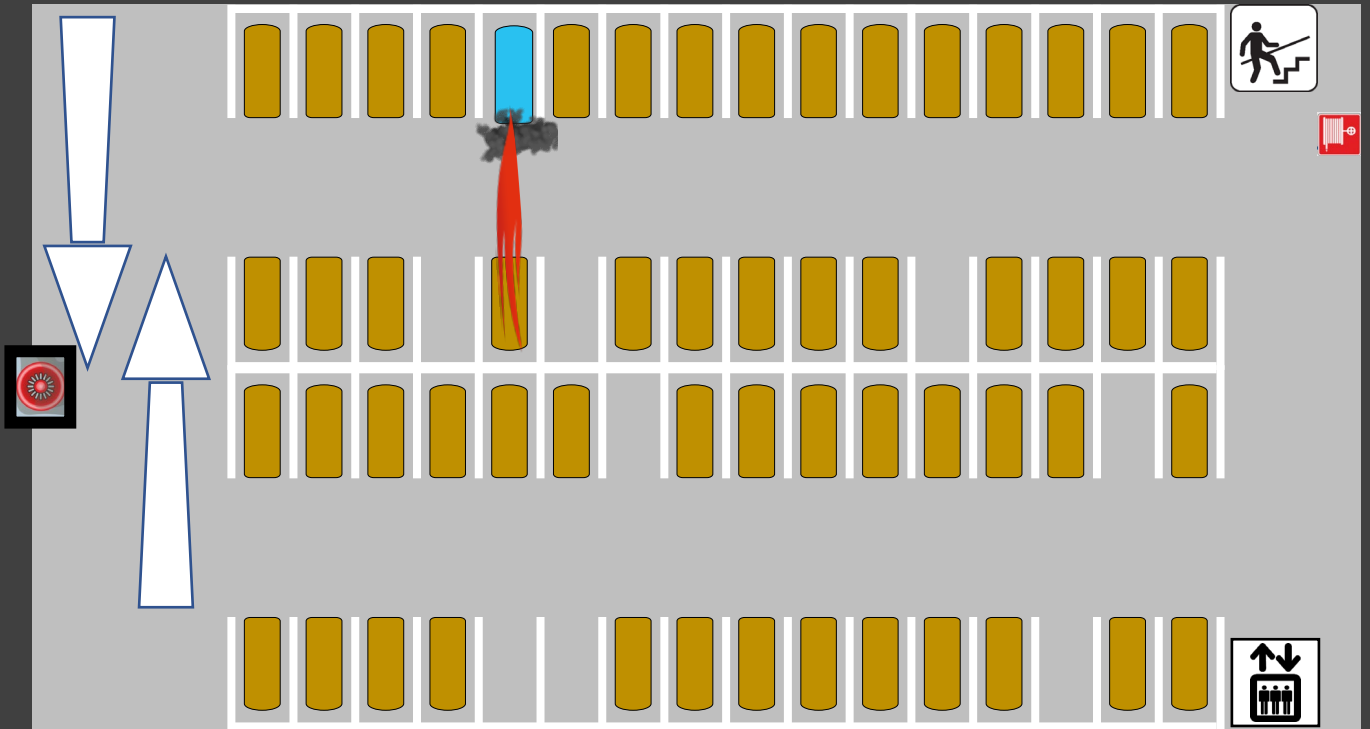

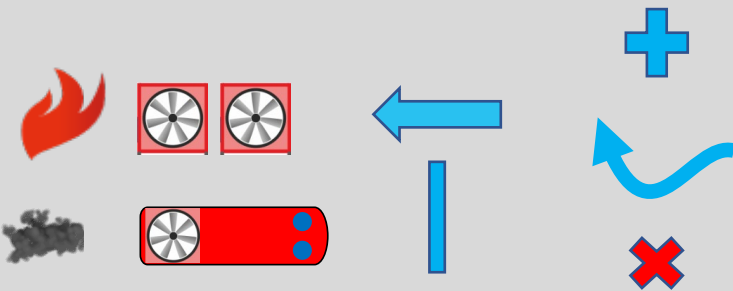

**Operator:**

- Fire protection **concept**, in particular:
  - Detection
  - Venting regime
  - Information for fire services

Level

**Moveable symbols**

Scenario: Hydrogen release, no fire

**Operator:**

- Fire protection **concept**, in particular:
  - Detection
  - Venting regime
